

THE JANESVILLE DAILY GAZETTE.

VOLUME XLVI

JANESVILLE, WISCONSIN, FRIDAY, OCTOBER 2, 1903

CONGRESS II TO MEET SOON

President Will Uge That
the Sessions Be Held
Immediately After
Fall Elections.

A CHANGE INTIME

Would Alter the Laws of
Time of Meeting of
Congress in the
Future.

Washington, Oct. 2.—President Roosevelt has had prepared for him an interesting brief of the constitutional and statutory provisions governing the time of holding sessions of congress. In his regular message in December there probably will be a strong recommendation favorable to a change in the time of holding the congressional sessions. This is a matter entirely within the scope of congress itself, the constitution merely fixing the date for the sessions in default of action by congress.

As everyone knows, the members of congress are elected in November, but their terms of office do not begin until the fourth day of March, a period of four months intervening. Under the existing circumstances, congress does not meet until the first Monday of the following December, or over a year after the election.

Most students of American methods have condemned this strange custom, as a result of which it is impossible for people to execute their will for thirteen months after general congressional election until the president sees fit to call a special session in the meantime.

In case of a reversal of the majority in the house of representatives it is generally true that the adverse majority is hostile to the administration, and for this reason it is likely that the sitting president would refuse to call an extra session in every case where a new congress probably would enact laws not in harmony with his views.

Lies With Congress.
Sec. 4 of the first article of the constitution provides: "The congress shall assemble at least once in every year, and such meetings shall be on the first Monday in December unless they shall by law appoint a different day."

Under this section it would be possible for congress to begin its new session at any time subsequent to the general election in November. There are many reasons why it seems desirable to have the term of senators and members of the house begin on the fourth day of March, so as to be in harmony with the term of office of the president. It has been suggested, however, that congress should meet regularly on the fourth day of March subsequent to the regular election, thus making the term of office of a member of congress begin with his term of active service, instead of paying him for eight months of actual idleness before he even takes the oath of office, as is the case at the present time.

Would Expedite Work.

It has been suggested that this first term beginning on March 4 would naturally be a short one unless there was pressing public business, and could easily be concluded in from thirty to sixty days, during which time committees could be appointed and the machinery of congress thoroughly organized preparatory to rapid work later on. Then could come one long session, beginning the first of November and closing about June 1, and a second short session running from the same time to the fourth of the succeeding March.

It is believed that in this way, with one moderately long session and two short ones, the work of congress would be expedited and the possibility of disastrous deadlocks would be greatly lessened.

Allows for Contests.

The most important thing, however, is the necessity of securing an early legislative session within a reasonable length of time after a general election at which the will of the people has been fully ascertained. Close students of governmental processes incline to the belief that it would be wise to allow several months' time between the election and the opening of congress in which to perfect proceedings for contest and to ascertain the proper facts of members to their seats. The period of four months between the March election and the fourth of March is, however, ample for this purpose, and if President Roosevelt writes a strong recommendation on this subject it is quite likely to be followed, especially as the headed reform can be affected by a mere statute of law without recourse to a cumbersome amendment to the constitution and without its being necessary to curtail or increase the term of office of any sitting member.

S. Proetzfeld, a prominent New York tobacco buyer, was in town yesterday and visited the warehouses.

AMERICAN PLAN CONSIDERED GOOD

English Merchants in Rhodesia Will
Adapt New System in Their
Business.

London, Oct. 2.—Sir Charles Metcalfe, the well known railroad builder in South Africa, and I. F. Jones, C. M. G., manager of the Chartered company, will sail next Saturday to the United States, where they intend to send a month investigating industrial and railroad methods, and especially the system by which the power of Niagara Falls is utilized. Immediately after their return the work will be commenced of harnessing the Victoria Falls on the Zambezi river in South Africa.

Sir Charles Metcalfe said: "America has been more successful than any country in inaugurating new industries, and we want to get an idea how it is done and apply it to our own country—Rhodesia."

BULGARIA CALLS FOR RECRUITS

Contingent Is Ordered to Report on
October 14th, Instead of
at New Years.

Sofia, Bulgaria, Oct. 2.—The war ministry has ordered out the military contingent of recruits for Oct. 14 instead of at the beginning of the year as usual. This step, though quite constitutional, has occasioned some surprise considering the reported improvement in the general situation. While the conditions are undoubtedly more hopeful, there is a strong belief in many well informed quarters that the Macedonian question is still threatening and can only be settled by war. The Bulgarian government therefore continues preparations for eventualities.

WEIRD FUNERAL PYRE MAY CONCEAL CRIME

Seven Persons Burn Heavy Bundle
Wrapped in White Cloth on Pile
of Brush in the Woods.

Brazil, Ind., Oct. 2.—At a late hour Thursday night a closed carriage was hastily driven to the woods belonging to Frederick Krump, south of here. On arriving at a dense clump of bushes four men and three women got out of the vehicle and carrying a heavy bundle wrapped in white cloth hurried into the woods. The men were closely followed by the three women, who carried cans evidently filled with coal oil. When a dry cluster of brush was reached a pile of sticks was quickly heaped together, thoroughly saturated with oil, and the men placed the object they were carrying on it and set it on fire.

The flames lighted the woods for some distance and three men watched the movements of the party while the object, which is supposed to have been a human body, was being consumed. The women seemed to be weeping and it was some time after the fire died out before the three onlookers dared to go to the place, where they found an accumulation of charred bones.

Prof. A. C. Fishback, who examined them, says they are human bones and look as though they had been sawed or broken. The purpose of this was evidently so that the bones could be burned to ashes. The people departed in the carriage as mysteriously as they came. The authorities are investigating.

SPARKS FROM THE WIRE

Daniel H. Ogden, a prominent business man of Ogden, Utah, was shot and killed while duck hunting. The wound was inflicted by a stray shot. Alexander Lefard, alias "Amsterdam French," was arrested at Richmond, Va., on suspicion of being one of the murderers of George Hickey at Rochester, N. Y., some time ago. One man was killed, one fatally injured and five others injured at Union City, Ind., by the breaking of an axle on a lumber car.

A northbound passenger train on the Frisco system and a southbound freight collided head-on near Koshong, Mo. Three trainmen were killed, a fourth fatally hurt and a passenger slightly injured.

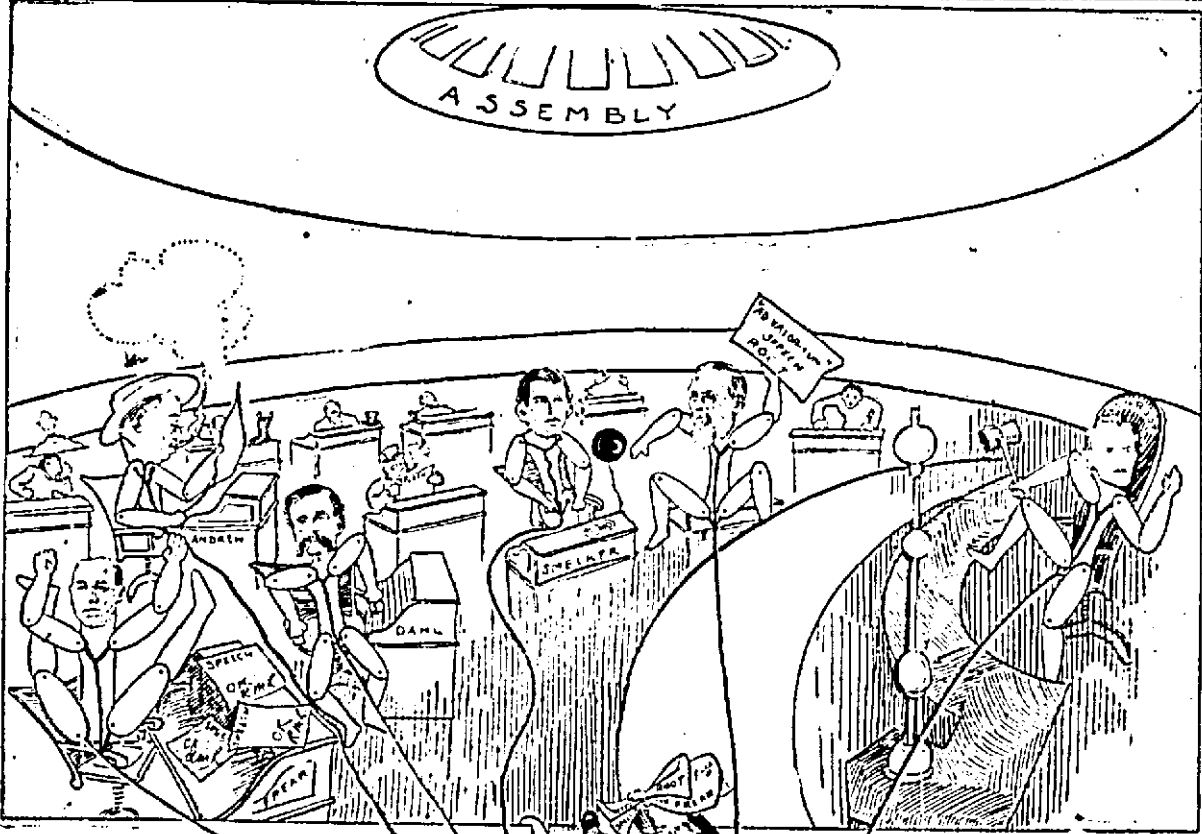

A number of arrests have been made recently in different parts of the country of persons peddling and inferior quality of cigars made in New York, but having the marks and brands changed so as to make it appear that the cigars were manufactured at Key West from Havana tobacco.

Sir Thomas Lipton's steam yacht, Erin, which sailed from New York Sept. 21, passed the Lizard, yesterday, bound east.

Commissioner Lahgerman of the St. Louis exposition has arrived at Taubert from Fez. He says his mission has been successful. All the sultan's foreign employees have now left Fez.

President Porfirio Diaz of Mexico has sent his portrait to Emperor William. This is the first time the National Zeitung says that the president of the republic has sent such a present to the emperor.

The pope yesterday received in private audience Bishop Henry Gaudenzi of the diocese of Ogdensburg, N. Y., and spoke to him in the kindest way of America, mentioning the Americans' sturdy piety and sending them his blessing.

JAPAN SNAPS AT RUSSIA

TROOPS REPORTED SENT TO KOREA BY MIKADO.

MAY MEAN AN EASTERN WAR

The Japanese Say They Will Protect
Korea, if War Follows.

(Special by Scripps-Metcalfe.)
London, Oct. 2.—It is reported here in the Mail this morning that Japan has sent troops to Korea. The move causes great alarm in diplomatic circles as it may mean a struggle in the east at once.

Ask Information.
Embassies are now in communication with Tokio asking as to move. The Japan consul general says: "That if the powers do not intervene to save Korea Japan will even if it must fight Russia alone." This means war in the east.

Not Serious.
The Japanese minister is not inclined to take the situation very seriously and thinks that the movement of troops is merely to protect the telegraph lines which is permitted by the agreement between Japan and Russia.

BIDS ON FIFTEEN DESTROYERS

British Admiralty Receives Proposals
for Torpedo Boats.

Glasgow, Scotland, Oct. 2.—The British admiralty has received tenders for the construction of fifteen torpedo-boat destroyers, to have a speed of twenty-five and one-half knots. Their chief characteristic will be a high forecastle. The builders were asked to submit designs for the machinery on the forced lubrication principle, so the working parts of the engines will be enclosed.

ANARCHIST PLOT IS UNCOVERED

Life of Queen Charlotte of Wurtemberg Is Threatened.

Berlin, Oct. 2.—The police investigations made as a result of the receipt by a member of the Queen's suite of anonymous letters threatening the life of Queen Charlotte of Wurtemberg have resulted in tracing an anarchist plot. Queen Charlotte is stopping at the Castle of Nached in Bohemia with her father, Prince William of Schaumburg-Lippe.

Carl Moore of Bridgeport, Ct., a representative of the U. M. C. company, is in the city looking over the

MILITIA OFFICERS DEFY COURTS OF COLORADO

Gens. Bell and Chase Notify Deputy
Sheriff That They Will Not Ac-
cept Service on Writ.

Cripple Creek, Colo., Oct. 2.—District Attorney Trowbridge has filed before Judge Seeds in the District court information against Adm. Gen. Sherman Bell and Brig. Gen. John Chase, charging them with false arrest in the case of Sherman Parker and three other union miners, who were held as prisoners in the guardhouse about two weeks, and who were released on writs of habeas corpus.

When Deputy Sheriff Thomas Underwood visited military headquarters for the purpose of serving the capias he was told that no service would be accepted by Gens. Bell and Chase, nor by any other members of the national guard while acting under orders from the governor. He was also told that any further attempts in that line by the civil authorities would promptly be resisted by the military.

Gen. Bell later gave out a statement for publication in which he said the laws of the state of Colorado and of the United States make members of the national guard when in the field exempt from service of civil courts, and he further declared that the district attorney in filing informations and the judge in issuing the capias made themselves liable to impeachment and indictment.

Gen. Bell said that should Judge Seeds attempt to enforce his order by use of a posse comitatus the entire militia force would be used to resist it. The adjutant general intimated that the action of Judge Seeds and District Attorney Trowbridge would be made the basis for legal action against those officials.

COAL IS SENT TO SQUADRON

Collier Alexander Is Ordered From
Port Said to Beirut.

Washington, Oct. 2.—The navy department has received a cablegram from Admiral Cotton, dated at Beirut, saying that the American consul had received word from Minister Leishman that the new Turkish governor-general had started for Beirut. At Admiral Cotton's request, the collier Alexander has been ordered from Port Said to Beirut to coal the squadron there.

ALFONSO MAY BE MARRIED SOON

THE BRIDE-TO-BE IS HIS OWN
COUSIN.

ARCHDUCHESS OF AUSTRIA

Marriage Is Said To Have Been Ar-
ranged Very Secretly, by
His Mother.

(Special by Scripps-Metcalfe.)
Madrid, Oct. 2.—It is reported that King Alfonso, is soon to be married

Spain's boy king in his new uniform, to the Arch Duchess Eleanor, eldest daughter of the Arch Duke Charles Stephen, of Austria.

Is His Cousin.
The arch duchess is his own cousin to King Alfonso on his mother's side. The marriage is popular in Spain.

KANSAS CORN YIELD IS HEAVY

Governor Bailey Says Crop Will Reach
100,000,000 Bushels.

Topeka, Kan., Oct. 2.—"I have just finished a tour of the Kansas corn belt," said Gov. Bailey, "and I feel safe in saying to the country that the corn yield this year will reach 100,000,000 bushels. There will be 50,000,000 bushels more than the grain men are figuring on." Gov. Bailey is one of the most extensive farmers of Kansas.

Actress Is Stricken.

Modesto, Cal., Oct. 2.—Miss Jean Durell, an actress, was stricken with paralysis on the stage while giving an

entertainment.

Appraising Hotel:—The Goodwin house in Belmont is being appraised

for the purpose of selling it.

Archbishop Kalin Railles.

Baltimore, Md., Oct. 2.—The condition of Archbishop Kalin has taken a decided turn for the better. His physicians express great hopes for his recovery.

TALK GRAMMAR IN THE DISPUTE

British and American Arbitrators
Clash Over Meaning of
Words.

London, Oct. 2.—During today's session of the Alaskan boundary commission a heated discussion developed over the meaning of the French word "cote" (crest). Sir Edward Carson, the British solicitor general contended it meant "summits" and quoted French authority in support of his argument. Senator Lodge quoted Litre as showing that the word meant the singular number.

A hot argument in regard to the authorities followed. Finally Lord Chief Justice Alverstone interrupted and said:

"Never mind. This case will not be decided by rules of grammar." The discussion led to the first display of irritation since the sessions of the tribunal began.

CZAR HUNTED IN PARK ALL DAY

Emperors of Austria and Russia En-
joy Their Day's Sport Very
Much.

Vienna, Oct. 2.—Emperor Francis Joseph and the czar reached the hunting lodge near Muerzsteg, Styria, this evening after a day's sport. Gendarmes and police line the roads leading to Muerzsteg. They are posted so close together that they are able to see each other and exchange calls.

MERCHANT USES AN AX ON GAMBLING DEVICES

Business Man of Knoxville, Tenn.,
Starts Crusade Against Violators
of the Law.

Knoxville, Tenn., Oct. 2.—R. F. Gant, one of Knoxville's prominent business men, a son of ex-Postmaster J. M. Gant and a trustee of the university of Tennessee, caused a sensation when he entered a wide-open gambling house in Gay street and with an ax began to smash the gambling devices. He began operations on a roulette table, called a Tennessee layout to evade the law making the operation of a roulette a felony. He had struck about three blows on the layout table when the handle of the ax broke.

Ben Alexander and Chureldil Luttrell, the latter being the son of J. C. Luttrell, a prominent hardware merchant, heard the noise while in an anteroom and hurried out to another gambling house in the heart of the city, conducted by Pat O'Bryan, which he was prevented from entering.

Gant followed up his ax crusade by addressing a letter to the board of public works, Chief of Police Atkins and Rev. R. L. Buchanan, in which he gave the location of other gambling houses and asked that they be closed. He also instituted civil and criminal prosecution against a number of gamblers.

STATE NOTES

William Banks of Ashland, was acquitted to the charge of murdering Joseph Bonome at Odannah on the night of Aug. 20. Banks pleaded self-defense and justifiable homicide. Charles Desjardin, 30 years old and a married man, was steamed to death at a paper mill in Marinette, Wis., as the result of an explosion.

Burglars entered the saloon and bowling alley of C. E. Anderson of Racine and carried away \$700 worth of cigars and liquor.

A freight train on the Wisconsin Central broke in two at Gill's Landing near Weyauwega, and smashed several cars and delayed traffic.

The J. Heinz pickle salting station at Tomah about finished its season's work, as the recent frosts have put an end to the cucumber crop.

The library board at Waukesha has decided to give the women's clubs of that city a lease of a room in the new Carnegie library building, provided they will furnish it.

Clinton Babbitt, former member of congress, appeared in Beloit a few days ago with his full beard shorn the first time, and said he had not been shaved before since 1843.

The Rev. T. J. Brown of the People's church of Fond du Lac, in considering a call from the Congregational church of Lake Mills, will let his present congregation decide for him.

The committee of the Superior Commercial club of Superior has reported against the proposition of joining the state association, as it is felt the expense of \$150 a year would not be warranted.

Log pirates, armed with Winchester, are unusually active on the Mississippi in the vicinity of La Crosse. They hold up guards of rafts and compel them to remain quiet while the best logs are taken.

Archbishop Kalin Railles.

Baltimore, Md., Oct. 2.—The condition of Archbishop Kalin has taken a decided turn for the better. His physicians express great hopes for his recovery.

SHERIFF MAN F

Five Men Were
a Riot in
Ohio,
Nights

PRISON IS

Took the Guilty
and Would Have
One of Them
a Tree

(Special by Scripps-Metcalfe.)
Oxford, O., Oct. 2.—The riot of Thursday's night was a critical one, but in a critical case, nothing is quiet but it has been received that the Spiveys are coming to town. Thirty men have been sworn in for the riot undoubtedly will be the eyes' friends attempt to die here.

The trouble was a large posse of angry men. One of the posse shot a man in a desperate battle, making a stand for their Spivey and the deputy was also badly hurt. Many may die.

The battle ended by a posse securing both the men and rushing them off to jail. The excitement quieted down and then growing rage of a large number of men was excitedly discussing the thing themselves with shot volvers, the mob started.

The Rev. T. J. Porter, dell and others, including of the wounded, marshaled impassioned speeches to a mob to disperse. Their mob in vain.

Make Attack on
The members of the heavy timber, and using tearing rams, burst open the jail and dragged the man, the doors of which were battered down.

A rope was placed over Spivey's neck and he was raised again. A third time crying for mercy, was begged for time to write, and thus secured some delay.

In the nick of time, Dr. Brannan, with a strong up and scattered the crowd was rushed back to the jail was taken to Hamilton.

Texas Mob Lynches
Marshall, Tex., Oct. 2.—Several hundred men forced through the brick wall of with the aid of a telephone with sledge hammers, took out Walter Davis, marched him to the town, where he was hanged.

The coroner's jury of negro committed suicide from a limb.

The lynching was the killing of Constable was taking a negro to shot, from ambush.

killing Davis and two were arrested and taken to Marshall. A mob formed afternoon and attacked the Marshall musketeers were and arrived at the jail had secured the negro.

OPPOSITION TO LAND LAW REPEAL

GUY MITCHELL ADVOCATES RADICAL CHANGES FOR WEST.

IT DEPENDS UPON THE EAST

Crabbing Corporations Have Taken Up the Best Lands on the Market.

The strong and determined opposition developed at the recent National Congress at Ogden, Utah, to the proposed repeal of some of our abused land laws indicates that there is to be any changing or amending of these laws it will be done only through a thorough understanding of their iniquitous features and an awakening of the people to a realization of the fact that under the present law the government is passing into the hands of private corporations and speculators for a mere tithe of their value to the nation.

A resolution was introduced at the congress by George H. Maxwell, the executive chairman of the National Irrigation association—the same resolution which was passed by the last Trans-Mississippi congress, quoting the president's words in denunciation of these laws and calling upon the United States congress for their repeal. Congressmen from both Wyoming and Idaho vigorously opposed such action and in a speech to the Irrigation Congress Representative Mondell of Wyoming strenuously defended all the land laws, especially the Desert Land law, which he stated had been of great benefit to Wyoming. On the other hand congressmen of California and Montana denounced all three laws as having been the cause of enormous areas of public land passing fraudulently into private ownership and Senator Gibson of Montana and Mr. Maxwell both quoted land office figures to show that unless something is done to prevent the absorption of these lands the great bulk of the remaining desirable and arable public lands, will, in a very few years, have entirely disappeared.

Twenty Million Acres a Year. As a matter of fact a recent statement of the commissioner of the general land office shows that during the fiscal year ending June 30, 1903, an even twenty million acres passed from the hands of the government, while the report of the preceding year shows practically the same figures—10,000,000 acres of public land in round numbers, passed into private ownership within two years.

But those who are only partly informed say, "Well, what of it? There are still five hundred million acres left in the arid states and territories; forty million acres is not such a great proportion of this vast area."

The truth is that the greater part of the remaining public domain is composed of irremediable and non-arable land—mountains, rugged hills, gulches and gorges which are now and always will be worthless for agriculture; they can never be used for anything but grazing. The forty million acres in question were not taken from such territory; filings were made for them upon the comparatively small remaining areas of plain and valley lands, capable of irrigation under government storage of flood waters and of sustaining a large population if settled upon in small tracts of eighty or one hundred and sixty acres each—an amount to sustain a man and his family, provided he has a good water supply.

Frauds Being Perpetrated. Under the Desert Land act which is supposed to contemplate the reclamation of the land, immense areas of land throughout the western states and territories have been patented which are now lying idle in the hands of speculators and live-stock concerns; as Governor Morrison of Idaho stated, this law has succeeded in "tying up" a great deal of Idaho's best land.

Under the commutation clause of the Homestead act much the same result has obtained. A man is able to commute and get title to his 160 acres after building a shack costing a few dollars and residing upon his claim a few times during a period of fourteen months, besides possibly making a few cheap improvements in case he thinks it is necessary. The name "homestead" is a misnomer, when the commutation clause is applied to the law.

Under the Timber and Stone act the most notorious frauds are being daily consummated. In the great timber regions of Washington and Oregon, by far the best timber region in the United States, land is being purchased from the government by dummies and speculators at \$2.50 an acre. "Save the forest and store the floods" is a huge joke to the timber speculators.

Repeat These Laws

Now the proposition is to repeal these three laws. It will be necessary to have some additional legislation regarding the sale of timber. A strong point made by the opponents of the repeal of these laws is that such action would cut off the contributions to the irrigation fund, which is derived from the sale of public lands. Under a proper timber law the government income from timber sales would be far greater than at present and in any event the above is a preposterous reason to advance, because if these laws are left intact, and the absorption of the public domain under them continues at present, there will soon be no government land left for reclamation under the irrigation act.

Looking to the East. The strength to insure the repeal of these laws must come from the west. The fight in the irrigation congress shows the opposition which is expected in certain sections west, and in order to secure the domain from speculation the law is intact against the

FORESTRY IS NEEDED GREATLY

Report of the Bureau of Forestry Recommends It for the County.

LOCAL DRUGGISTS MET YESTERDAY

They Were Addressed at the City Hall by a Member of the National Association.

Mr. Doble, a representative of the National Association of Retail Druggists, addressed a meeting of the Rock County Druggists' association yesterday afternoon in the assembly room of the city hall. Nearly all of the city druggists were at the meeting and among the out-of-town "pill mixers" present were R. Wilson of Edgerton; F. Van Wart and C. A. Emerson of Beloit; W. H. Gates of Milton; C. A. Smith, E. R. Smith, and J. M. Farnsworth, also of Beloit. In his talk Mr. Doble mentioned the numerous benefits to be had by joining the national association. He spoke at length of the many advantages to be derived by the members of the association from a closer connection with the manufacturers and jobbers. He told of the benefits his own association had received and were now receiving and that the Rock county men would be favored by joining the general organization.

His proposition met with general favor among the members present although no definite action was taken. His talk was thought to be very interesting by the local association.

REV. DENISON TO BE HEARD TWICE

Will Be the Central Figure at the Menomonee Congregational Convention.

Rev. Robert C. Denison and H. J. Cunningham leave Monday for Menomonee where they will attend the sixty-third annual convention of the Congregational churches of Wisconsin. The session opens Tuesday and will conclude Thursday. Over 250 delegates will be in attendance. On Tuesday afternoon Rev. Denison will deliver the annual communion sermon. His subject will be "The Tower of Babel—Christianity." He will speak again Thursday on "The Spirit of the Evangel in Church Life."

SOLICITS HELP FOR NOBLE WORK

A Representative of Volunteers of America Asks Aid for Men Freed from Prisons.

Captain Young, representing the Volunteers of America, is in the city soliciting funds for the work. The volunteers are in touch with prisoners of sixteen states and a part of their mission is to provide employment for men and women whose prison terms have expired.

They are furnished with shelter and a home, until employment can be secured and then the organization stands behind them.

Some 6,000 men have thus been cared for and a large percentage of them have thoroughly reformed. This is only one of many features of philanthropic work in which the volunteers are engaged. The Gazette is pleased to commend Captain Young to the generous-hearted people of Janesville. Every dollar of money collected will be spent for practical reform, and in channels that have been neglected.

WAS A PRETTY WEDDING

Miss Ella Quinn and John Wright Married by Dean McGinnity.

Two of Janesville's popular young people were married at St. Patrick's church by the Rev. Dean E. McGinnity when he united Miss Ella Quinn and John Wright Wednesday evening. Frank Quinn was best man and Miss Margaret Quinn, sister of the bride, was maid of honor. After the ceremony which occurred at 8 o'clock a wedding supper was served at the home of the bride's parents. The young couple will make their home in the Burdick flats on South Franklin street. Mr. Wright is employed by the North-Western road as brakeman and the couple have hosts of friends in the city.

FORESTRY IS NEEDED GREATLY

Report of the Bureau of Forestry Recommends It for the County.

TICKET AGENTS AT NEW ORLEANS

Complaints Made by Owners of Broken Trunks, Are Scarce in Janesville.

The thirteenth of this month will witness the gathering of many passenger and ticket agents representing roads all over the country, at New Orleans when the American Association of General Passenger and Ticket Agents will hold their annual convention in that city. Neither W. A. Johnson or A. N. Gleason, the passenger agents representing the two railroads in Janesville have made definite plans to be present at this meeting, but some other railroad men from the Power city will in all likelihood be there.

One of the subjects to be discussed at the convention is baggage handling. Travellers are happy for movement is on foot among the leading officials of large railroads looking towards a better way of handling baggage and doing away with the continual complaints to the lines that trunks and telephones are smashed while in the hands of the company and being transported from place to place.

For years the baggage men and their mode of handling the luggage of the traveling public have been the foundation for many pages in the comic weeklies and has afforded the cartoonist a ready subject at all times.

This is to be done away with and if the plans of the men at work on the matter carry there will be no more complaints and the traveler can carry crockery and glassware in his trunk and feel safe that at least the pieces will be there when the trunk arrives at its destination. This question which has so perplexed railway officials for so many years will be discussed at length at the annual meeting of the American Association of General Passenger and Ticket Agents to be held at New Orleans, Oct. 13. For some time the agents have been paying attention to this question and it is said some of the western roads have formulated a plan that gives indication of meeting with general approval and when put into effect will revolutionize the manner of caring for the belongings of others while enroute from place to place.

Some of the lines of late years have provided their baggage agents with padded trunks and since the introduction of these there has been a noticeable decrease in the number of complaints, but it is admitted there is yet plenty of room for improvement and this will be the aim of the agents at their coming convention.

Within the past two years baggage smashing has been reduced to a minimum on the larger roads of the country, but it is the intention of the passenger officials to bring about a uniform method of caring for passengers and property.

It has been found that many causes combine to make the careful handling of baggage difficult on the part of the employees of the road. It is pointed out that the average traveler delays sending his trunk to the depot until the last moment and after its arrival postpones checking until a few moments of the time set for the departure. A time limit on checking the baggage men claim, would enable them to give proper attention to the trunks and suitcases committed to their care.

As yet Janesville is not enjoying any of the improvements which have been made in the manner of handling baggage, but the agents of the lines are unanimous in saying there have been fewer complaints in the past years than for some time and they think more care is being exercised all around than in the past. Practically no trouble has been caused by smashed luggage at the local depots for a long time.

W. C. T. U. TO MEET AT BELOIT

Program Will Be Held at the Methodist Church This Afternoon and Saturday.

Meeting of the Women's Christian Temperance union will be held in Beloit today and tomorrow which promises to be of much general interest. A large number from the county and state are expected to be present and Janesville will be represented by quite a delegation at the meeting held in the Line City this afternoon. The occasion of the gathering is a district institute and the sessions this afternoon and Saturday are to be held at the Methodist church. These will begin at two o'clock each afternoon. Sunday evening at the M. E. church Mrs. V. H. Campbell of Evansville will lecture, talking for subject: "Heavenly Vision." The following interesting program has been arranged for the two days.

Friday Afternoon. Devotional services—Mrs. Dutcher. Paper or talk on the importance of scientific temperance instruction in the home and the school—Mrs. C. F. Harly.

Social meetings and their influence in the work of the union—Mrs. Clara Rogers.

The relationship of the union to W. C. T. U. home at Eau Claire and the best ways of raising money for the same—Mrs. T. M. Brown. Lesson in parliamentary law—Mrs. Campbell, Evansville. Meeting of committee on resolutions.

Saturday Afternoon. Devotional exercises. Model reports by the treasurer and secretaries.

Fair work in local and county fairs—Mrs. Carr.

The distribution of literature—its uses and abuses—Mrs. G. M. Allen. A question box will be conducted by Mrs. Campbell, Evansville. Informal discussions are to follow each address.

Perverse Mankind.

Of course, the graduates in this year's crop will be the wheat ever, but it is safe to say there will be found persons to play the races.—Buffalo Express.

Unionism Causes Divorce.

Indianapolis, Ind., Oct. 2.—Trades unionism figured in a novel way in a divorce suit here. Lela P. Smith was plaintiff and Noah B. Smith defendant. The cause of their estrangement was the intense rivalry between the unions to which they belong.

Call for Turkish Volunteers.

Omaha, Oct. 2.—George Blain, yard foreman for the Havens Coal Company, was found dead in the company's office, supposedly murdered and robbed. A gash several inches long was cut across the side of his head.

TICKET AGENTS AT NEW ORLEANS

Complaints Made by Owners of Broken Trunks, Are Scarce in Janesville.

TALK ON BAGGAGE SMASHING

Complaints Made by Owners of Broken Trunks, Are Scarce in Janesville.

The thirteenth of this month will witness the gathering of many passenger and ticket agents representing roads all over the country, at New Orleans when the American Association of General Passenger and Ticket Agents will hold their annual convention in that city. Neither W. A. Johnson or A. N. Gleason, the passenger agents representing the two railroads in Janesville have made definite plans to be present at this meeting, but some other railroad men from the Power city will in all likelihood be there.

One of the subjects to be discussed at the convention is baggage handling. Travellers are happy for movement is on foot among the leading officials of large railroads looking towards a better way of handling baggage and doing away with the continual complaints to the lines that trunks and telephones are smashed while in the hands of the company and being transported from place to place.

For years the baggage men and their mode of handling the luggage of the traveling public have been the foundation for many pages in the comic weeklies and has afforded the cartoonist a ready subject at all times.

This is to be done away with and if the plans of the men at work on the matter carry there will be no more complaints and the traveler can carry crockery and glassware in his trunk and feel safe that at least the pieces will be there when the trunk arrives at its destination. This question which has so perplexed railway officials for so many years will be discussed at length at the annual meeting of the American Association of General Passenger and Ticket Agents to be held at New Orleans, Oct. 13. For some time the agents have been paying attention to this question and it is said some of the western roads have formulated a plan that gives indication of meeting with general approval and when put into effect will revolutionize the manner of caring for the belongings of others while enroute from place to place.

Some of the lines of late years have provided their baggage agents with padded trunks and since the introduction of these there has been a noticeable decrease in the number of complaints, but it is admitted there is yet plenty of room for improvement and this will be the aim of the agents at their coming convention.

Within the past two years baggage smashing has been reduced to a minimum on the larger roads of the country, but it is the intention of the passenger officials to bring about a uniform method of caring for passengers and property.

It has been found that many causes combine to make the careful handling of baggage difficult on the part of the employees of the road. It is pointed out that the average traveler delays sending his trunk to the depot until the last moment and after its arrival postpones checking until a few moments of the time set for the departure. A time limit on checking the baggage men claim, would enable them to give proper attention to the trunks and suitcases committed to their care.

As yet Janesville is not enjoying any of the improvements which have been made in the manner of handling baggage, but the agents of the lines are unanimous in saying there have been fewer complaints in the past years than for some time and they think more care is being exercised all around than in the past. Practically no trouble has been caused by smashed luggage at the local depots for a long time.

LA PRAIRIE. La Prairie, Oct. 2.—The L. M. B. S. and Grange held their annual entertainment at La Prairie Grange hall Saturday, Sept. 26th. A pleasant day was hoped for but alas. How Hicks prophesied rain and it simply poured but nevertheless nearly one hundred sat down to a sumptuous dinner. It was thought the judges used good judgment in awarding the premiums which were as follows:

Chicken pie, 1st, premium, Mrs. Nellie Sherman; 2d, premium, Mrs. Scott; 3d, premium, Mary Reeder; 4th, premium, Lida Reeder. Best chicken pie, baked beans, 1st, E. Thompson; 2d, premium, Mrs. Mary Reeder; 3d, premium, Nellie Sherry; 4th, premium, Olive Finch.

Best Raisin Biscuits, Mrs. J. Morton; brown bread, Mrs. Estelle McDonald; best grange bread, Mrs. Elizabeth Lloyd; oat meal cookies, Mrs. Hanna Chubbuck; best pudding, Estelle McDonalds; best coconut pie, Mrs. H. Kellogg; best Elderberry pie, Mrs. Olive Finch; best pumpkin pie, Mrs. Olive Finch; fried cakes, Lizzie Gleason; potato salad, Lizzie Gleason; chocolate cake, Mrs. J. Morton; cottage cheese, Mrs. Eliza Lloyd; largest collection of flowers, Lizzie Gleason. An interesting program was given after dinner in which several special premiums were competed for, which were announced as follows:

Best recitation by boy or girl under 12 years of age, Lida Caldwell, best song by a young lady, Leah Slawson, best recitation by a young lady over 20, Ella Caldwell, best recitation by young lady between 15 and 20, Gertrude Reeder, best song by girl 10 and under, Lida and Floyd Caldwell, best recitation by a young lady any age, Ora Rosie Finch, best waltzing couple, Mr. and Mrs. Thornton Read, girl with the prettiest eyes, Carrie MacCawing, girl with the smallest foot, Ora Finch, best natural looking girl, Leah Slawson, prettiest girl, Florence Parker. Owing to the rainy afternoon all out of

door games and races were postponed many thanks are due Kellogg's orchestra for the fine music which was well appreciated by all.

LOCAL MARKET PRICES. Reported for the Gazette. October 1, 1903.

Wheat—No. 3 Winter, 78¢; No. 4 Winter, 76¢; No. 5 Winter, 74¢; No. 6 Winter, 72¢; No. 7 Winter, 70¢; No. 8 Winter, 68¢; No. 9 Winter, 66¢; No. 10 Winter, 64¢; No. 11 Winter, 62¢; No. 12 Winter, 60¢.

TROUBLE AT THE SOO.

The Consolidated Lake Superior company, located at Sault Ste Marie, Michigan, is having all kinds of experiences on account of financial trouble.

The company is capitalized for something over \$100,000,000 and has invested about one third of that amount in plant and equipment, located on both the American and Canadian side. The water power is one of the best in the country and is estimated at 2000 horse power.

The company owns a large tract of choice timber on the Canadian side and employed a large force of men in the woods. The product of the plant includes a large line of staple goods and several departments are in successful operation.

It is a gigantic enterprise, but appears to have been badly managed. The capital stock was largely on paper, and the company borrowed liberally in the eastern money market. Among the heaviest creditors is Sparger & Co., of New York, who hold past due paper to the amount of \$5,000,000 and who are now planning to place the company in the hands of a receiver to secure their claim.

The capital invested is largely Canadian capital and a desperate effort is being made to reorganize the company and save it from wreckage. The plant is too valuable to be abandoned and the business will be developed under some management.

This company, like many others, is the product of prosperity, and while the enterprise is legitimate the investment has dealt so largely in futures, that the first evidence of a money stringency, produced collapse. While it presented something tangible, the stock was so badly inflated that it became practically worthless.

TOO MUCH PROSPERITY.

The nation is suffering just now from an overdose of prosperity. It seems a little peculiar, and yet it is true, that many people find it more difficult to endure prosperity than adversity.

This is true of both capital and labor. The former may have been in hiding for years, but when it escapes it frequently becomes reckless. This has been demonstrated during the past two or three years, and millions have been invested in all sorts of "get-rich-quick" schemes, that would have been turned down without notice in ordinary times.

People who possess money, but lack the ability to take care of it, are more numerous today than ever before, and they readily become easy victims of designing promoters for all sorts of fake enterprises. It is popular to talk about the bloated bond holder, and he is frequently maligned and ridiculed, but it is well to remember that the man who owns bonds usually possesses the ability not only to make money, but to keep it.

Capital is the product of accumulation, and it applies to the small holder just as much as to the millionaire.

The man or the woman who possesses thrift and economy, laying by a little every week, soon becomes a capitalist, and there is much of this kind of accumulated money in the country today.

This class of capitalists frequently possess an ambition to invest their little hoard in some outside deal that promises quick returns and large profits.

A servant girl, earning three or four dollars a week was induced to invest \$7.50 per month in a mining scheme. This is only one of thousands of instances where this class of people has become the victim of a swindle.

Good times where employment is abundant is seeking the employee, and it is not until strikes develop, and there is an army of idle

workmen in the country during the past six months, and every last man might have been employed at good wages had he felt the necessity for work.

When an allegiance to a labor organization is more sacred than loyalty to his home it is safe to say that he is a victim to too much prosperity.

It is well to recognize the fact that times of depression always follow good times, and the law of necessity is always a hard task master.

BANKS AS ADVERTISERS.

The Bowers Savings Bank, of New York, one of the richest banking institutions of that city, advertises for depositors. This policy is being discussed in Boston, where the old style policy has been in force. However, one Boston savings bank has openly advertised for depositors, and what this bank has dared to do, the older and more conservative institutions, will probably approve of one by one, as the financial value of advertising is realized. The bank that does advertise is one of the youngest of the savings banks, and another of the younger institutions has practically decided upon this course. Several more of the newer banks have been sending out statements as "feelers" where the financial soil seemed promising, but it has been done quietly, for fear the bank commissioners might deny the practice. The richer and older of the savings banks consider that their deposits are large enough already.

One institution, whose deposits reach \$30,000,000, does not care for any increase beyond the normal increment that comes to it from its regular depositors, and again thinks it hardly in the spirit of the historic precedent to advertise. However, the fact that the younger banks are unaffected by this precedent and are breaking away from customs one by one, shows that competition has crept into the banking business, as into any branch of our financial and commercial systems. Publicity cannot hurt a bank that is wisely and successfully administered.—Exchange.

IRON AND STEEL.

The anticipated change in the movements of iron and steel in the foreign trade of the United States did not make itself as apparent in the August record as was expected by students of this subject. The figures of the August imports and exports of iron and steel just presented by the Department of Commerce and Labor, through its Bureau of Statistics, show that the imports of iron and steel in August, 1908, were \$3,440,100 in value, against \$3,529,676 in the preceding month of July and against \$1,123,314 in August of last year. Thus the falling off of imports of iron and steel in August compared with August of last year amounted to \$2,316,786. Practically all of the reduction occurs in ingots, blooms, slabs, billets, and bars of steel, and in plates. The quantity of ingots, blooms, slabs, billets, and bars of steel and steel in forms not otherwise specified, imported in the month of August, 1908, was 45,650,655 pounds, against 74,076,356 pounds in July, 1908, and 87,420,104 pounds in August 1907. In the plate the importation of August 1908, was 6,977,012 pounds, 6,287,106 pounds in August 1907. While the reduction in these two items shown in pounds seems large, the actual reduction of already shown, is less than 100 thousand dollars, as compared with the eight months ending with August the total value was \$32,279,525, against \$23,456,760 in the corresponding eight months of last year, and \$12,210,322 in the corresponding eight months of the preceding year, 1907.

Governor La Follette has given the senators a rest for a few days, and has opened his gun on the press of the state. He imagines that a certain class of newspapers are largely interested in railroads and advises the people to be careful as to their patronage. The Gazette is a little low on railroad stock at the present time, and is glad to know that it does not belong to the governor's list.

The Milwaukee Journal has stirred up a scrap on circulation which promises to lead to plenty of controversy. The Journal should have discovered ere this that only a limited number of patrons are interested in circulation figures. The reading public take but little interest in this sort of a controversy.

Governor Yates of Illinois, is having a hard time to convince the people that he is entitled to another term. While he in no sense resembles the governor of the Badger state, he is equally unpopular.

Another grade crossing accident in Chicago resulted in six deaths and a number of injuries. Elevated tracks is the only safety.

The State fair management announces a balance on the right side of some \$16,000. Minnesota has four times that amount.

labor suffers with capital, because it acquires an air of independence that is too often arrogant.

PRESS COMMENT.

Los Angeles Times: The window glass men have their trust working in fine shape. Has any one a large

rock about his clothes that he isn't using?

Buffalo Courier: The Massachusetts fish commission has planted 50,000 lobster. Race suicide is evidently a long ways off.

New York Mail and Express: The existence of white slavery in Alabama shows the inhuman greed knows no color line.

Kansas City Star: The adaptation of the soil of the United States to the growth of watermelons and the prominence of the possum among the fauna of the country seem to bear out the opinion of Senator Hoar, of Massachusetts that the negro is in America to stay.

Chicago Chronicle: When all Abdul Hamid's other resources fail to quell the Macedonians, he can send to Chicago for a bunch of blank signed warrants and thus reduce the insurgents to abject submission.

Chicago Inter Ocean: The time is coming in Chicago when the young man who calls with a box of candy will stand a better chance than the young man who drives up in an automobile.

Chicago News: When it comes to fighting a nonpartisan candidate like Mayor Low, the New York partisans of both parties will find no difficulty in getting together on a nonpartisan basis.

St. Louis Globe-Democrat: All the engineering commissions reported the Nicaragua route to be practicable. But it remains to be proved that the congress of Nicaragua is less than that of Colombia to ask for the earth.

Indianapolis Sentinel: Thousands slaughtered in the Balkans, revolution and threatened war in South America, new trouble feared in Manchuria—and the football season is opened! And we were beginning to be hopeful for universal peace.

SPADES ARE BUSY AT THE FORD MILL

Excavating for the Foundations Well Under Way—Old Timbers and Saplings Encountered.

The work of excavating at the Ford mill has made more rapid progress the last few days than at any time during the beginning of the work. A large derrick has been rigged upon the bank and two large wooden frames are used to lift the dirt from out of the hole.

Besides the mud and gravel a large amount of old timbers and decayed branches are being dug out of the river bottom. The timbers once formed part of the old water power and also the branches which are mostly remnants of saplings.

A large part of the force at work is now employed with spades and wheelbarrows in getting the dirt and rubbish to the derrick, to be lifted out and deposited on the bank at the edge of the mill race. A force of nearly thirty men are now at work.

New Flood Gates Ready. The line of new gates behind the cofferdam is now finished and when put in place will keep a large amount of water from the diggings for one or more of the small pumps will be placed between the cofferdam and the gates and it is expected that this will be sufficient to take care of the water that comes through and around the cofferdam from the upper river.

Boarded on All Sides. A new row of timbers are now being sunk along the north side south of the stonework. This makes a line of matched boarding on all sides except the old mill building.

A Worthy Crusade. Mrs. Ogden Colet, of New York, is engaged in a crusade against the practice of docking horses' tails. She considers it cruel, barbarous, and disgusting.

Use Wax Bullets. Shooting at a live adversary with wax bullets, by way of duelling practice, is the latest exercise of Parisian votaries of the revolver.

FRANK WILLEY DIES SUDDENLY

FOUND DEAD IN HIS BED THIS MORNING.

WAS AN INVALID SOME TIME

He Was Well Known in Janesville, Having Long Been Known as Authority on Tobacco.

Somewhere between sunset and dawn John F. Willey, a newspaper man who has followed his vocation in Janesville with varying fortunes for many years, laid down his heavy burden of suffering and sorrow and passed quietly into that sleep from which there is no awakening in this world. At eleven o'clock this morning E. A. Hardy, who is one of the roomers in the Corn Exchange building, knocked at his door and received no answer. He called several times with the same result. He tried the door. It was locked.

Broke in the Door
Mr. Hardy became apprehensive, as he had known that the newspaper man had been confined to his bed for several days. He secured a chair and peered through the transom. What he saw seemed to confirm his suspicions. The man whom he had been attempting to arouse lay upon his bed with one hand upon his breast. The face was white and haggard but a smile of perfect peace hovered about the corners of the mouth. Mr. Hardy hastened to call the officers and returning with John Brown assisted in breaking in the door.

What Led to Discovery
Mrs. Fannie Phillips, who lives six miles from Janesville, came in this morning to inquire after Mr. Willey's health and see if there was anything that could be done for him. She was unable to find his room and made inquiries of Mrs. Hardy. Mrs. Hardy was not certain of the location and called her husband. This was what led to the discovery.

Room in Confusion
While Mrs. Phillips was waiting for the officer a sister of Mr. Willey, Mrs. Charles Hackbarth, drove in on a similar mission from Milton. A few moments later the door was forced and the worst suspicions confirmed. Willey had been dead several hours. His room was in a state of indescribable confusion. Articles of wearing apparel and newspaper clippings littered the floor. There was a box of crackers and some orange peelings on a table and several bottles of medicine near the bed. Dust and grime had settled on everything and the whole appearance of the room was one of disorder.

He Died Alone
Mrs. Hackbarth was distracted at the sight and could not be comforted. She kept repeating over and over again: "That he should die like this when I offered him a home." She was in the city Wednesday and tried to persuade her brother to leave the city for a while and live with her at Milton. But he had told her that he had work to do and must stay here. No one, as far as could be learned, had seen him for two days. Mr. Hardy called to him yesterday morning and asked if he could be of service and received a negative answer. The door was locked at that time and from this fact it is believed that Willey knew the end was near and chose to meet death alone.

Invalid Many Years
The deceased was forty-seven years of age. His sister said this morning that he had been an invalid since he was seven years old, as a result of a severe attack of measles. Of late years he had suffered much with asthma.

Authority on Tobacco
He had been in Janesville for upwards of thirty years. At one time he was editor of the Farm and Home and another time owner of the Tobacco Leaf. He was regarded as one of the leading authorities on tobacco in the west and remained a correspondent for leading eastern and western tobacco journals up to the time of his death. At different times he also did reportorial work for the Gazette and the Recorder and had been writing a series of tobacco articles for the latter paper during his sickness. The last one was sent by Mr. Hardy to the office on Wednesday.

Left No Property
It is not believed that he left any property. He was bohemian in his tastes and habits and cared little for money—at least never saved it. Sixty cents in change was found upon his clothes. Excepting Mrs. Hackbarth his nearest relatives live in Vermont.

Mrs. Joseph Page
The funeral of the late Mrs. Joseph Page was held from the residence in the town of Rock at ten o'clock this morning. Miss Mary Kimball officiated. Interment was made at Edgemoor.

OUTLOOK GOOD FOR FINE TIME

The Odd Fellows Will Meet Tonight, and Have a Jolly Time.

The outlook for the Odd Fellows' entertainment and initiation this evening is good, and a jolly time is looked forward to. James A. Fathens has received word from nearly all the towns that are expected to send delegations, that indicates that a good turnout will be present.

Dr. A. P. Burr's Office
Tallman block, Janesville, opposite postoffice. He will be there all next week, where you can get gilt edge teeth that you do not have to carry in your pocket.

Miss May Ellis is visiting at the home of J. Jacobs at Genoa Junction.

BUS TO LINKS TWICE A WEEK

Changed From Daily Trips Because of Approaching Cold Weather.

The directors of the Mississippi Golf club have decided that beginning next week the bus will only run twice a week, on Tuesday and Friday afternoons. This is done because of the cool weather decreasing the attendance. It will as heretofore meet the car that leaves the depot at one o'clock. This will be the regular arrangement unless special parties are scheduled beforehand. The final of the mixed foursome for the McGiffin trophy, which will occur a week from Saturday will be eighteen holes instead of nine as in the semi-finals. The semi-finals will come off next Tuesday afternoon.

FUTURE EVENTS
Flora de Voss Co. at the opera house week of Oct. 5.
Odd Fellows' meeting and initiation tonight.
Football game with Beloit at school Oct. 10 at Beloit.
Odd Fellows' encampment at Madison Oct. 13.

LODGE MEETINGS TONIGHT
Rock River Encampment, No. 3, East Side Odd Fellows' hall.
Oriental Lodge, No. 22, K. of P. Castle hall.
Amalgamated Sheet Metal Workers, Assembly hall.

Rock River Grange, No. 36 holds its next regular meeting at Good Templars hall, Monday evening, Oct. 5th.

Questions for discussion: 1. Are football games as now played justifiable or necessary as a means of exercise or recreation? 2. Who should pay the indemnity when a foreign citizen is lynched in a state?

Wanted—A strong boy about 15 years old to learn the dry goods business and deliver bundles. Bort, Bailey & Co.

Card of Thanks
To the many friends and neighbors who so kindly assisted us during the sickness and death of our beloved daughter and sister, we wish to render our sincere thanks. Stephen Dooley and family.

In Municipal Court: James Murphy appeared before Judge Fildes Friday morning to answer to the charge of drunkenness. Sentence was suspended for one week.
Pleasant Gathering: A pleasant company gathered at the home of O. M. Athen, Wednesday evening, for the "parents' meeting." The subject for the evening was "Home Government." Several good papers were read, two recitations and several musical numbers were given. The evening closed with an informal discussion and social.

George Tallman has returned from Lake Koshkonong where he has been employed for the past month.

FACTORY COMING TO JANESVILLE

THE HOOK & EYE CONCERN WILL MOVE HERE.

RUNNING NEXT WEEK, SURE

Mr. Mills, President of the Company, Says That the Machines Will Be Here Monday Next.

According to Mr. Mills, president of the Hook and Eye company, he will begin moving his machines to Janesville on Monday next and by a week from Monday will be able to start shipping the U-Pin-it hooks and eyes to all the many orders he already has on his books. Within a month the entire factory output and sixty hands will be in operation and the full line of novelties the factory will produce will be placed upon the market.

Assured Subscriptions
Mr. Mills said this morning that he now had been practically assured the requisite twelve thousand five hundred dollars' worth of stock he asked for and that what little remained to be sold was being sought by local investors who saw the value of the proposition. In fact as Mr. Mills expressed it all that remained now was to have his machines shipped here, set up, and started and the work began to fill the orders he already has upon his books. Two expert machinists from Waterbury, Conn., will come with the machines and set them up and start the work and a little later the rest will be brought here and started.

Many Lines
Aside from the four hook and eye machines the company has twenty-four others, lathes, shapers, planers and stampers. These are used in manufacturing the novelties that the company puts out. These consist of patent telephone receivers, display card stands, pencil holders, patent suit hangers, metal work for loose edge ledgers. The running of these machines will employ some sixty hands, most of them skilled laborers, many of whom are married and will add materially to the population of the city.

The Prospects
In speaking of the prospects of the factory Mr. Mills said: "I expect to start moving the hook and eye machines here next week. These are four in number and will be put in operation at once, so that in a few weeks' time we will have begun shipping our products." The subscription lists while not yet full gives every indication of reaching a higher figure than I even asked for at first. The people who have investigated the company and the demand of the market for our goods have all become stockholders and I feel so assured of the results being

greater than I anticipated that I am making all arrangements to move our machines here at once.

Many Agents
"Last season we had seventy-five travelling men who handled the hook and eyes as a side line and this year we expect to have fully two hundred and fifty men who are on the road who will take the goods as a side issue. Aside from these we will start three general travelling men out, who will visit the big department stores and the jobbers of the country. A little later we shall have ten district salesmen on the road and I expect by Christmas time to have the factory running with a full force."

"At first we shall start with forty or fifty hands but we shall increase this number as fast as possible as the demand increases. I expect our shop foreman, E. W. Woods, here next week and the hiring of help will be left to him. I am more than pleased with Janesville as the location of the factory and hope in a few years to own our own factory, either building or buying some suitable location."

After the publication of the statement of the company in the Gazette on Wednesday evening the two banks mentioned in the article had many inquiries as to the company. On another page will be found the names of many prominent wholesale houses who handle the goods with a series of subscription blanks which prospective purchasers of stock may fill out and leave at the banks.

Work of Grading the Famous Roadway Is Now Under Way.

A force of twenty-five men is at work lowering the level of McKee boulevard, according to the established grade, from the crossing at the Rock River Interlocking tower to Eastern avenue and the bridge. Considerable work is necessary to accomplish this on account of the interurban tracks. Spring Brook residents along this street are rejoicing over the prospect of having the street improved as it has been in bad shape for a long time. The tracks and part of the road bed has been altogether too high, being above the level of the lots and the result was that in spite of gutters, during heavy rains the land on both sides of the street got the worst of it. "Pole Alley" has been the subject of more discussion and criticism in this neighborhood than the wild west show or any other Spring Brook phenomena.

LAST DAY TO-MORROW

Miss Wilcox, demonstrating Richelieu coffee, will close her engagement to tomorrow evening.

D. Drummond & Son
Opera House Block.

The Best Tea

If you want the best tea money can buy, my 25c one-sharp Jap Tea is it.

Well Tested
I have sold this tea for years and never have received a complaint in regard to it. Everybody praises it. I have ten for more money and less money, but especially recommend this 50c brand to all critical tea drinkers. Use the Phone.

Balance of Week

The balance of this week and all of next Miss Wilcox will demonstrate the many good merits of

Richelieu Coffee

INSPECTION IS OVER FOR NONCE

BUT STATE FACTORY MEN PROMISE TO RETURN SOON.

TWO WERE FINED \$10 TODAY

Others To Suffer, if Recommendations for Changes Are Not Followed.

J. H. Harbeck and J. O. Mayes, state factory inspectors, concluded their investigations, for the present at least, in Janesville this morning. The head men of the two factories where children under sixteen years of age were employed appeared in municipal court on warrants taken out this morning and each paid fines of \$10 and costs amounting to \$2.80.

Unintentional Disobedience
Mr. Harbeck said this morning that there was no intention to be severe with the manufacturers as it was quite likely that they had merely been careless in the matter of obeying the law, which requires the children shall be sixteen years of age or over. One of the girls who appeared this morning was fifteen years old. "The law is not entirely equitable in its workings," said Judge Fildes. "The children and parents who do not tell the truth about their ages escape unpunished, while the man that hires them has to suffer."

Inspection Not Thorough
The inspector said that there had been no attempt to make a thorough examination of all the factories, or, in fact, any of them. The inspectors simply passed through some of them and questioned a few of the employees. Had a thorough inspection been made there is no doubt but that many, instead of two, would have appeared in municipal court this morning.

Must Have Fire-Escapes
In the cases of exposed pulleys and belting passing through the flooring, etc., the factory men were merely requested to make changes to comply with the laws. One of the inspectors will return shortly to see if the recommendations have been followed out. Mr. Harbeck says that the law requiring fire-escapes on all buildings of three stories or more, where twenty-five people live or are employed, has been disregarded in several notable instances in Janesville and that unless the owners install the required improvements they will be punished on the occasion of the next visit.

Janesville the Worst
The inspectors recently visited Kenosha and Racine and found several cases of violation of the child labor laws there. Janesville, however, is worse than any of the cities they have visited in some respects.

Mrs. Alexander McGregor and Miss Alice McGregor have returned from Koshkonong lake where they have been for the last few weeks.

who admire quality in laundry should investigate the superiority of our work. It is noticeable in all classes of laundering, but particularly on full dress shirts, fine shirt waists and other garments that require skill and care to produce the best results. Send us your bundle this week and we will show you what it is possible to accomplish by high-class laundering. Phone and our wagon will call.

CAN PHOTOGRAPH HEAVENLY BODIES

Prof. Comstock Makes a Novel Experiment with Sky Photography.

Professor G. C. Comstock of Washburn observatory at Madison, has been engaged throughout the summer in experimenting in and perfecting an appliance for photographing the stars and has met with excellent results. The principle involved is the simple one of the camera in which the objective lens of the telescope is made to serve as the lens of the camera. The camera is attached to the end of the telescope and the impression of any star in the line of vision is made on the film. The main difficulty in the photographing of the heavens is that of obtaining absolute immobility on the part of the instrument. With a telescope twenty feet in length, whose direction is constantly being regulated by clock-work, it has been necessary for Professor Comstock to have an appliance constructed which will just overcome this. This is in the shape of a prism which deflects the image through an eyepiece, thus enabling the operator to see when absolute quiet is attained and to regulate it mechanically to obtain that result. The time of exposure required varies with the brilliancy of the object to be photographed, from a fraction of a second in the case of the moon to a half hour for dim stars.

Sol and Joe Cooper of Fort Atkinson were the guests of the Messrs. Levy yesterday.

S. D. Conant returned from Boston, Mass., Wednesday evening, where he has been the past three weeks visiting his boyhood home. Mr. Conant visited the farm he lived on when a boy and found the orchard in which his father planted trees, many of them sturdy and 100 years of age.

**Top Notch
Butter Scotch**

A new kind of butter scotch, made in a new way; a better butter scotch than you ever tasted. Better because it is nutritious as well as delicious; better because it's pure, whole, some. Try the following recipe and test its real goodness.

One cup of Karo Corn Syrup, one cup of granulated sugar, one-half cup of fresh butter. Boil until a small quantity dropped in cold water becomes hard and snaps. Do not stir while boiling. Add butter just before candy is done.

Karo
CORN SYRUP

Is decidedly preferable to any other syrups, which come to the consumer with all the dirt and dust the syrup measure has accumulated since its last use. Karo Corn Syrup is protected by airtight, friction-top tins, which preserve its purity, insure its cleanliness, guarantee its goodness. 10c, 25c and 50c, at grocers.

CORN PRODUCTS CO.,

C., and intermediate points. \$27.50 to points in Montana. \$22.80 to Billings, Mont., Ogden and Salt Lake City, Utah; Pocatello, Ida., and intermediate points.

...Forty Years Ago...

Janesville Daily Gazette, Friday, October 2, 1863.—Colonel Jefferson of the 8th regiment, is at home on a furlough.

The 20th regiment, in Herron's corps, was 25 miles north of Port Hudson on the 10th, looking after snuffins.

A correspondent writes us from Helena that the 25th Wisconsin regiment is there, what there is left of it. It has never been in a battle, but is reduced to 65 men fit for duty by sickness alone.

The Richmond Examiner of Thursday the 25th, contains the following: The battle of Chickamauga is finished. It is an unquestionable victory for the confederates; yet there is little rejoicing over it. It was proven to the north that the Southern Cause has not collapsed; that no disabling wound has been inflicted on our organization, and that our arms are still fighting machines of tremendous power. So far so good; but it cannot be denied that the results are not all that we had reason to anticipate from a success in the field. The enemy hold Chattanooga and East Tennessee, which were the prizes of the battle. True, he cannot remain long in Chattanooga. Possession of Lookout Mountain is essential to the possession of Chattanooga, and Bragg doubtless expects to conclude the campaign by reorganizing a capitulation which will surprise that of Ulm. But another battle must be fought and another victory gained before the conclusion can be reached.

CALENDAR AT MYERS GRAND

Oct. 5, 6, 7, 8, 9, and 10—Flora De Voss in Repertoire.
Oct. 15—"Peck's Bad Boy."
Oct. 17—"The Gamekeeper."
Oct. 20—Richard Carle in "The Tenderfoot."
Oct. 21—Entertainment by local talent, under auspices of G. A. R.
Oct. 27—Stetson's "Uncle Tom's Cabin."
Oct. 31—Andrew Robson in "Richard Carvel."

The bewitching and popular western comedienne, Miss Flora De Voss, will open a week's engagement next Monday, Oct. 5, in the sterling comedy drama, "Tennessee's Partners," supported by her own talented company. Chance of bill each

night with scenery, specialties, illustrated songs and moving pictures, between acts. A notable feature is their Italian harp orchestra. Don't miss it. Ladies will be admitted free under usual conditions. Sale of seats at box office opens in the morning. First class plays by a first class company.

As soon as the working force was placed under arrest another force of men was secured to print the Record for the morning's issue. A squad of soldiers were sent down from the camp to arrest these men. The doors of the Record office were locked and bolted, and the officer in charge decided not to break in.

New York, Sept. 2.—The Tribune publishes a special correspondence from Japan, giving a detailed and interesting account of the recent hostilities committed by the Daimos or semi-independent princes of Japan upon Dutch and French vessels. It is generally known that many if not all of the Japan Daimos have shown themselves extremely hostile. The government of the Tycoon, whatever may have been its real sentiments has for some time been waver between maintaining friendly relations with foreigners and yielding to the pressure brought upon it by the Daimos. The latter found it convenient to give new vitality to the long unrecanted supremacy of the Mikado, the spiritual ruler, through whom a proclamation went forth that all foreigners should be expelled.

Vivisection.—(From the Pall Mall North American)—"The horrors of vivisection" would form a starting title for a book, and many persons might be disposed to look upon a work coming out under such auspices as a romance. We have but to turn to that land which assumes to itself the foremost place in the civilization of the world to find such crimes perpetrated and sanctioned in its public schools of medicine as to make one doubt whether it is not a land of savages instead of Christians. Yes, France, La Belle France, not only tolerates but applauds vivisection, the latest novelty in comparative anatomy, an interesting process, whereby animals are dissected alive by the lecturer for the instruction of his pupils.

MAY IMPEACH THE GOVERNOR

Colorado Springs Trades Council Opposes Sending of Militia.

Colorado Springs, Colo., Oct. 2.—Resolutions were adopted by the Colorado Springs Federated Trades' council calling on the citizens of the state, regardless of calling, to demand the impeachment of Gov. Peabody for sending the militia to Cripple Creek during a time of profound peace. In the spirit of the resolutions a committee was appointed to arrange for a mass meeting to be held in this city at an early date for the purpose of taking action. The resolutions also denounce the militia and declare that it is composed of the most undesirable elements in society—"youths of inexperience and men of low character."

CHINESE MINISTER IS VEXED

Will Protest to Secretary Hay Against Detention of Brother.

Washington, Oct. 2.—The Chinese minister is awaiting the return to Washington of Secretary Hay, when he will file an official protest against the treatment accorded his brother, Liang Hsun, consul general for the Philippines, and a party of women who accompanied him, by the immigration inspectors at San Francisco, on their arrival at that city recently. Although the inspector was instructed to facilitate their landing they were detained for some time, finally being permitted to land after the minister had made representations to the state department.

LIVING IS NOT MUCH HIGHER

Bureau of Labor Will Give Increase at 15 or 17 Per Cent.

Washington, Oct. 2.—The bureau of labor soon will issue the results of an exhaustive study of the increased cost of living during the last few years in relation to the increase of wages. The results show that there has been a striking similarity between the advance in wages and the increased cost of living, and that neither has gone forward as much as popularly supposed. The current report that commodities have advanced 27 per cent is shown to be wide of the mark. It will be nearer 15 or 17 per cent.

Great Coffee Drinkers.

The Brazilians drink coffee as the Germans drink beer. A great many cups are drunk each day by the average man and woman. The coffee is made very strong and very sweet.

Railway Equipment.

There are in use in the United States 1,640,220 railway cars and 11,228 locomotives.

CALUMET Baking Powder

The only high grade Baking Powder sold at a moderate price. Complies with the pure food laws of all states.

Trust Baking Powders sell for 45 or 50 cents per pound and may be identified by this exclusive price. They are a menace to public health, as food prepared from them contains large quantities of Rochelle salts, a dangerous cathartic drug.

Mrs. Williams Always Felt Tired.

1329 Hawthorne Avenue, Minneapolis, Minn., August 26, 1903.

Mrs. Proctor Williams says: "My greatest trouble seemed to be a general weakness and all-over-tired feeling. I did not expect to be ever strong again. I was in a pitiful state when my husband, who had been benefited by the use of Paine's

Paine's Celery Compound

Cured Her.

BORT, BAILEY & CO.

While we are conducting a series of remarkable cut price sales in the various departments of our store, we wish to call your attention to the fact that we are now showing over \$40,000.00 worth of New Fall Dry Goods.

Every dollar's worth bought for cash,

Ever discount taken for cash,

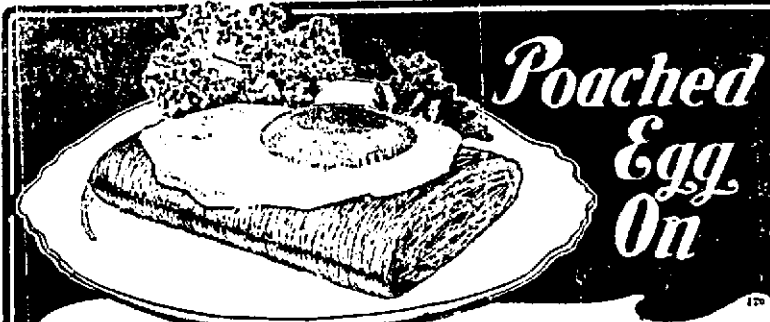

Every payment anticipated and interest saved,

And every item sold cheap for cash.

CHECK RAISERS REAP HARVEST DETECTIVES ARE ON THE TRAIL

Officers of the Secret Service Bureau Believe They Are on the Scent and That They Will Land the Gang Behind Prison Bars.

Philadelphia, Pa., Oct. 2.—The postal officials here, working under the direction of the Washington office, expect to arrest two check forgers and expose a system of fraud extending through the entire eastern section of the country.

It is now certain that these two men stole a mail pouch from the Pennsylvania road at some point between Philadelphia and Pittsburgh, and that out of the checks they found in the pouch they selected many they could raise and alter, and thereby realize thousands of dollars.

During their search the postoffice inspectors discovered a pile of torn checks, in number about 1,200, in a New York lodging house. These checks it is said, were so marked that any raising of the amounts would be impossible without immediate detection.

Rob Mail Pouch.

The checks raised were originally part of the contents of a mail pouch which disappeared Sept. 5 from a west bound express train on the Pennsylvania railroad between this city and Pittsburgh. The mail bags' loss was promptly reported to the government officials, and the local postoffice inspectors at once began their search for it. They had no idea at that time of criminal participation.

The missing pouch had contained hundreds of checks sent out by local banks and firms to western correspondents. These orders had been drawn, for the greater part, by depositors in this city and vicinity. They were mainly for small amounts and drawn on a score of banking institutions.

Erase Payee's Name.

Recently a local bank received from an Ashbury Park correspondent a check for \$500. On examination it was found that the payee line of the check had been treated with an acid solution and another name substituted. The original value of the check was \$5 and the word "hundred" was added. It was later learned that the check had been one of those in the missing pouch.

The postal inspectors traced the check to a man in Ashbury Park, who opened an account with a bank there and later deposited the fraudulent check.

Big Banks Are Hit.

Another bank here found a check for \$700 among the batch sent from a New Jersey correspondent. It had been raised from \$7, and the indorser was the same as that of the first altered draft. Some of the largest financial institutions in the city have found themselves the possessors of the bad checks.

It is believed the missing pouch fell into the hands of clever forgers, who utilized its contents to their own advantage.

HERO'S WIDOW ASKS AN OFFICE

Politics May Prevent Mrs. Shipp From Becoming Postmistress.

Washington, Oct. 2.—Among the president's callers was Mrs. Margaret Shipp, widow of Lieut. William E. Shipp of the Tenth cavalry, who was killed while leading his men in the charge on San Juan hill. She wants to be postmistress of Lincolnton, N. C. The present postmaster is P. A. Barkley and he has the backing of the Republican state organization. The president, who knew Lieut. Shipp well, in talking of him to Mrs. Shipp, said: "He took breakfast with me the morning he was killed. He was as true and brave a man as ever lived." No decision as to the Lincolnton postmastership has been reached by the president.

British Ship Burns.

Amsterdam, Oct. 2.—The British steamer Bida, bound for Hamburg, was burned off here and foundered in deep water. The Bida was a vessel of 950 tonnage.

Three Men Are Killed.

Ogdensburg, N. Y., Oct. 2.—A fast express train crashed into a handcar containing ten men near Godrich. Three were instantly killed.

A STORY BY BROTHER FRANCIS

IT IS TOLD FOR THE BENEFIT IT
MAY BE TO OTHERS.

Brother Francis of St. Philip's home for Indigent Boys, 417 Broome Street, New York City, in a letter written June 6, 1902, says: "Having given all other remedies a trial without success, I consider Father John's Medicine the best for bronchial troubles. It being the only remedy to give me permanent relief, I recommend it to others likewise troubled with the same results."

GAINING RIGHT ALONG.

"Gained sixteen pounds in six weeks since taking Father John's Medicine—James B. Rice, Fairmont, W. Va."

FATHER AND SON.

E. C. Troughton, of Cleveland, O., says that he and his son find Father John's Medicine all that is claimed for it. Cures asthma, bronchitis. Not a patent medicine.

The money now invested in our business will be used in building additional machines, advertising U-Pin-It Hooks and Eyes, extending our trade and increasing our facilities for manufacturing. The par value of our stock is \$1.00 per share and is fully paid and ABSOLUTELY non-assessable.

.. A Statement of the Company's Profits ..

PRESENT CAPACITY	COST OF PRODUCTION	SELLING PRICE	PROFITS
Per day, 200 gross	\$100	\$250	\$150
Per year, 60,000	\$30,000	\$75,000	\$45,000
Our Ten New Machines when completed will give us the Following Results:			
Per day, 700 gross	\$350	\$875	\$525
Per year, 210,000	\$105,000	\$262,500	\$157,000

Estimating the office expenses, cost of advertising, etc., at 50 per cent of the profits, with only our present capacity, there should be \$22,500, net profits to pay out on a capital of \$250,000 next year, just 9 per cent on our capital stock. If you purchase stock at 50c a share, you would be receiving 18 per cent on your investment. By adding ten machines the dividends would be increased, as the above figures will show, to 31 per cent on the capital stock or 62 per cent on the investment. These figures do not include the profits made on our horse blanket pins and mail order business.

In figuring the profits on ten machines, it is not to be understood that we will not need more than this number, for we need ten additional machines now. The DeLong Hook and Eye Company have over 50 machines in operation and employ about 200 people in their plant at the present time.

You will, no doubt, say that the above figures depend entirely on our ability to sell the goods. With reference to this, we will illustrate the present condition of our business in saying that we are now unable to supply the demand made upon us because of our limited facilities for manufacturing. What may we not expect in the future.

Again you may say, "perhaps the women will not like it." To this query we will reply that a letter sent to 300 women who have given the the U-Pin-It Hook and Eye practical tests, and which asked them to state just what they thought of it, brought in more than 33 1-3 per cent of actual endorsements. Experienced advertising specialists tell us that 2 1/2 per cent returns is considered good.

Thirty-three and one-third per cent of the women who have given the U-Pin-It Hook and Eye a practical test have actually endorsed it; this means that of the 6,000,000 gross or more of hooks and eyes manufactured and sold every year, we will be the producers of at least 2,000,000 gross on which we make a profit of 75 cents to the jobber and \$1 to the retailer.

We are informed that the manufacturers of the "Hump" Hook and Eye, to be sewed on, have made over \$1,000,000 in profits in the last few years. Their stock has been recently quoted at \$10 per share—par value \$1.

We are the inventors and sole manufacturers of U-Pin-It Hook and Eye, the only Hook and Eye in the world that positively does away with sewing.

From a few advertisements placed in women's magazines, we received ten thousand inquiries within a few months. U-Pin-It Hooks and Eyes are now sold in nearly every state in the Union and have been placed on sale as far away as Sydney and Melbourne, N. S. W., over 10,000 miles from our home market. The machines used in manufacturing U-Pin-It Hook and Eyes are entirely automatic and were designed and built especially for us. These machines, which are almost human in their operation, are the most wonderful automatic wire bending machines in the world and were the first ever built to manufacture a two-pointed pin.

It is not in the least improbable that shares of stock, which by the above agreement are purchased for 50c per share, will within two or three years be worth from \$2 to \$5 each. As a profitable investment for the individual purchaser of U-Pin-It stock, this will, therefore, need no further emphasis than that we CONFIDENTIALLY BELIEVE this advanced figure will be realized. On the basis of "public spiritedness" the location of our factory in Janesville and the general benefit of the enterprise to its citizens and vicinity will be apparent to you.

Application Blank

BOWER CITY BANK, ROCK COUNTY NATIONAL BANK
Janesville, Wis.

I hereby subscribe for 1903
of the stock of the U-Pin-It Hook and Eye Co. at 50c
per share, and you are authorized to enter my name
on the subscription list accordingly on conditions
named therein.

Cut this out and send in at once to one of the above named banks.

We are authorized to refer you
to the Bower City Bank and the
Rock County National Bank,
Janesville, Wis., where our refer-
ences are on file.

President

Our Guarantee

The U-Pin-It Hook and Eye Company guaran-
tees to repurchase the stock one
year from this date at 55 cents per share (just 10 per
cent advance) if the investment does not prove en-
tirely satisfactory.

U-Pin-It Hook and Eye Co.

Sports of the Hour.

Miss Rhona Adair, England's Great Woman Golfer. Jeffries Criticised.

Miss Rhona Adair, the champion woman golfer of Great Britain, who is now visiting this country, is probably the greatest player of the old Scotch game, so far as women are concerned, that has ever lived. Winner of scores of tournaments of minor importance and holder of the championship of England, she has also captured four times the women's premiership of Ireland.

Miss Adair, who is an English woman, is a guest of Miss Frances E. Griscom of Philadelphia. Miss Griscom.

MISS RHONA ADAIR, WOMEN'S GOLF CHAMPION OF BRITAIN.

who formerly held the women's golf championship title of America, met Miss Adair on one of her trips abroad. Miss Adair is an attractive young woman, of comparatively slight build, although her work on the links evidences that she is not lacking physical strength.

Champion Jim Jeffries, who has drawn the color line and declines to fight McVey and Johnson, the colored giants of California, is now having his troubles with the sporting men of the Pacific coast. Jeffries, it will be remembered, didn't draw the line when Peter Jackson, then a wreck of his former self, asked for a match. He fought Jackson and of course whipped the black man in quick time. The California sporting men now ask Jeffries why he draws the color line on McVey and Johnson when he did not on Jackson. The big champion can hardly justify his course, and it looks as if the sports and newspaper writers will force him to fight.

McVey since he knocked out "Denver Ed" Martin in a round is hot on Jeffries' trail. He has challenged him, and if Jeffries refuses to fight him he says he will claim the championship. Jeffries appears to have the worst of the color line argument. If he had ever fought a colored man, there would be some justification in his color line argument.

AFTER AUTO RECORD.

H. S. Harkness to Go Across Continent Against Time.

The next candidate for transcontinental automobile racing honors will be H. S. Harkness of New York, who will undertake to drive from New York to San Francisco this fall, reversing the route of all the previous attempts.

Harkness will use the special racing car which was built under his direction to compete in the Gordon Bennett race, but which through failure to have a condition in time did not appear in the eliminating trials. The same machine was taken abroad by Mr. Harkness early in the season. Now he proposes to equip the chassis of this car with a novel touring body, changing the speed gearing as well and making such other alterations as may be required to increase comfort for long distance traveling.

It is the ambition of Mr. Harkness to make the transcontinental trip in record-breaking time. To do this he will have to cover the distance between New York and San Francisco in less than sixty-two days, the present record, established by Fitch and Knarup recently.

Annapolis and West Point. Paul Dashiell, chairman of the rules committee, the well known umpire and prominently identified with football at Annapolis, says that there is still a possibility of West Point and Annapolis getting together this fall. "No college men," he says, "must play on either team, however." This means Charley Daly.

Wet is idle. Jimmy Britt is idle and anxious to have something to do. He will in all probability be matched to fight some good man of his size by the Reliance club of San Francisco.

Big Football Games. The dates of the big games in the future are: Harvard-Pennsylvania, Nov. 1; Philadelphia; Yale-Princeton, Nov. 1; at New Haven; Harvard-Yale, Nov. 1; at Soldiers' field.

Adol of Curley battle

STRIKE BREAKERS LAY DOWN

Millers Refuse to Work on Their Arrival in Minneapolis, Minn.

Minneapolis, Minn., Oct. 2.—Thirty-two men who came down from Duluth with the intention of taking strikers' places in the mills, did not go to work and because of this fact the strikers credit themselves with one victory. When the trains arrived in Minneapolis the new men had decided that they would not go to work. The men say that they came under a misapprehension that the strike had been settled. Many are experienced in the milling business.

IMMENSE CATFISH KILLS MAN

William McClain Drawn Into the Mississippi River and Drowned.

Muscatine, Iowa, Oct. 2.—After a desperate struggle with an immense catfish in the Mississippi river, William McClain lost his life. McClain was in a skiff enjoying a day's sport. Suddenly he felt a tug at his line and he prepared to land the fish. At the first pang caused by the hook in his mouth the huge catfish shot forward, dragging McClain out of his boat and into the swift current. The line became entangled about the unfortunate man's body, and despite his efforts to release himself or reach the shore, he was drowned.

FALLS EIGHT FLOORS TO DEATH

Cornice Mender Loses Balance on Swinging Scaffold and is Killed.

Chicago, Oct. 2.—Losing his balance on a scaffold suspended from the Atwood building, Madison and Clark streets, opposite the eleventh floor, William Bogardus, 35 years old, 128 Seminary avenue, fell onto the skylight of a three-story addition and was instantly killed. Bogardus was working on the scaffold with Robert Richardson. Both were engaged in repairing the cornicework in the rear of the building, and Bogardus lost his balance when he attempted to lift a heavy piece of cornicework.

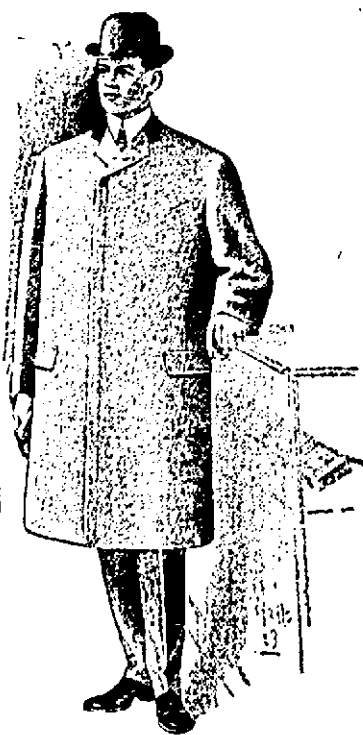

VOTE-SELLING IS DEPLORED

Judge Patten of Lincoln, Ill., Wishes Penalty Were Heavier.

Lincoln, Ill., Oct. 2.—Judge Patten's expressed desire that the crime of vote-selling be punished by a heavier penalty than is now enforced has attracted much attention. The jurist in disfranchising Clarke Young for ten years said he believed the practice had been going on in the city for a number of years.

London's Birth Rate. In London each day 400 children are born and 250 enter school for the first time.

"If you want to know what smartly dressed men are wearing this season, ask to see ZEIGLER CLOTHES."

Some Men

have their clothes made-to-order, because they think that they cannot get any ready-to-wear that'll fit them, or that are as finely tailored as their high priced tailor's products. If you are such a man, we'd like to show you the hand-tailored ready-to put on

Zeigler Clothes,

and have you try on a Suit or Overcoat of your size. If you'll just come here to see—even if only

out of curiosity—you'll surely find the style, the fabrics, the workmanship and the fit up to what you'd pay your tailor double the price that we'll charge you.

If you open to conviction and wish to save money, "ZEIGLER CLOTHES" is your opportunity.

If you're going to come in DO IT NOW.

A Good all wool Cheviot in Blue or Black or other colors at

10.00 or 12.00

and plenty of styles and plenty good enough for business.

For \$15.00, 18.00, and 25.00

as good as any Tailor can produce. Look them up now while the stocks are complete.

Fashion Note: Don't wear a silk hat with a Tuxedo dinner coat.

THE IMPROVED VICTOR.

Sings Everything. Plays Everything. Just Like The Original.

The new improved Victor with the tapering arm is so perfect that it is often mistaken for actual talking and singing, even by persons accustomed to it. It is as

Soft and Sweet As the Voice of a Woman;

as full loud, clear and strong as that of a man. The Victor renders high instrumental music—solo band and orchestra—so as to make the listener hold his breath. Our machines range in price from

\$15.00 To \$40.00.

When passing our store step in and see this latest wonder.

H. F. NOTT,

South Main Street.
